ENGINEERING PROFILE

End-to-end ownership, production-first yondashuv

Talabni tushunishdan boshlab, arxitektura, dasturlash, integratsiya va production deploygacha boʻlgan toʻliq sikl.

Portfolio biznesga real qiymat beradigan tizimlar, avtomatlashtirish, kiosk/integratsiya yechimlari va tijoriy web loyihalarni qamrab oladi. Asosiy farq — faqat kod yozish emas, balki yechimni ishlab chiqish, serverga chiqarish va ishlaydigan holatda topshirish mas’uliyatini olish.

FLAGSHIP BUSINESS SYSTEMS

ERP & CRM — full-cycle system delivery

Frontend, backend, mobile va server qismlari bir qo'lda ishlab chiqilgan yangi biznes tizimlari.

01 / ERP / RETAIL OPERATIONS

Attar Gallery ERP System

Attar Gallery uchun savdo va operatsion jarayonlarni yagona tizimga birlashtiruvchi ERP yechimi. Tizim kundalik boshqaruvni markazlashtirish, ma'lumotlarni tartibga solish va biznes operatsiyalarini nazorat qilishga qaratilgan.

SYSTEM SCOPE

- Ombor va do'konlar boshqaruvi
- Yetkazib beruvchilar va xaridlar
- Buyurtmalar, mijozlar va qarzdorlik nazorati
- Operatsion panel va rolga asoslangan foydalanish

MY OWNERSHIP

- Frontend — admin/shop interfeyslar
- Backend — API va business logic
- Mobile — biznes jarayonlari uchun mobil qism
- Database va ma'lumotlar modeli
- Linux server, deploy, domain/DNS va production setup

DELIVERY End-to-end architecture → development → production delivery

LIVE asum.uz

02 / CRM / DELIVERY OPERATIONS

Oqtosh Minerale CRM System

Oqtosh Minerale uchun suv yetkazib berish jarayonlarini boshqaruvchi CRM: web admin panel va haydovchilar uchun mobil ilova. Buyurtma, mijoz, kuryer va yetkazib berish holatlarini yagona tizim orqali boshqarishga mo'ljallangan.

SYSTEM SCOPE

- Web admin panel
- Buyurtmalar va mijozlar boshqaruvi
- Driver mobile app
- Kuryerlar va yetkazib berish statuslari
- Operatsion monitoring

MY OWNERSHIP

- Frontend — CRM admin UI
- Backend — API, business logic va database
- Mobile — driver application
- Server-side deployment va konfiguratsiya
- Domain/DNS, production rollout va support

DELIVERY Web + Mobile + Backend + Server — complete ownership

SELECTED PRODUCTION SYSTEMS

Complex integrations & real-world automation

To'lov, qurilma, WiFi, printer va fizik kiosklar bilan bog'langan production yechimlar.

03 / WIFI MONETIZATION

EduWiFi

Telefon raqami orqali ro'yxatdan o'tish, tarif tanlash va to'lovdan keyin internetdan foydalanish imkonini beruvchi WiFi monetizatsiya ekotizimi. Loyiha Turin Politehnika universiteti va Farg'ona davlat texnika universitetida amaliy ishlagan.

SYSTEM SCOPE

- Registration & tariff flow
- Payme / Click payment flow
- WiFi access control
- Frontend + backend + server

MY OWNERSHIP

- Full-stack development
- Server administration
- WiFi infrastructure integration

DELIVERY Production deployment in educational institutions

04 / KIOSK / PRINTING AUTOMATION

AutoPrint

USB fleshka yoki Telegram orqali hujjat yuborib, A4/A3, rangli/oq-qora va duplex parametrlar asosida chop etish imkonini beruvchi printer-kiosk tizimi.

SYSTEM SCOPE

- USB & Telegram file intake
- Print settings workflow
- Payments
- Printer automation

MY OWNERSHIP

- Full-stack development
- Payment integrations
- Server administration
- PC EXE / printer control

DELIVERY Self-service printing workflow in production

05 / INTERACTIVE KIOSK

Aromat

Ekraanda atir tanlash, sepish sonini belgilash va to'lovdan so'ng avtomatik sepishni boshqaruvchi interaktiv kiosk tizimi.

SYSTEM SCOPE

- Kiosk UI
- Payment flow
- Automatic dispensing control
- Server integration

MY OWNERSHIP

- Full-stack development
- PC EXE development
- Payment integration
- Server administration

DELIVERY Software + hardware integrated kiosk solution

SYSTEMS & AUTOMATION CATALOG

Production systems — catalog 1/3

Mavjud 25 ta buyurtma loyihasi: qisqa biznes qiymati va bajarilgan texnik rol.

PROJECT	SOLUTION / BUSINESS VALUE	OWNERSHIP
EduWiFi WIFI / PAYMENTS	Telefon raqami, tarif va to'lov asosida internetdan foydalanish imkonini beruvchi WiFi monetizatsiya ekotizimi.	Full-stack • Server • WiFi integration
Aromat KIOSK	Atir tanlash, to'lov va avtomatik sepish jarayonini birlashtiruvchi interaktiv kiosk.	Full-stack • EXE • Payments • Server
AutoPrint KIOSK / PRINT	USB yoki Telegram orqali fayl qabul qilib, foydalanuvchi tanlagan parametrlar asosida chop etuvchi printer-kiosk.	Full-stack • EXE • Payments • Server
IDPay FINTECH	Telefon raqami, yuz identifikatsiyasi va bank kartasi orqali kontaktsiz to'lov konsepsiyasi.	Project management • Coordination
Simple Market Cash System RETAIL / POS	Admin va kassir rollari, mahsulot, ombor qoldig'i va sotuvlarni boshqaruvchi kassa tizimi.	Backend • Server
LMS Clark Ecosystem EDUCATION	Admin, administrator, o'qituvchi va o'quvchi rollarini qamrab oluvchi o'quv markazi LMS ekotizimi.	Backend • Server
Safe Work CORPORATE WEB	Kompaniya ma'lumotlari, yangiliklar, murojaatlar va o'quv materiallari uchun korporativ web platforma.	Frontend • Backend • Server
Distributor Bot TELEGRAM COMMERCE	Distributorlarga Telegram bot orqali elektron do'kon yaratish, mahsulot boshqarish va buyurtma qabul qilish imkonini beruvchi tizim.	Backend • Server
Happy Birthday Bot AUTOMATION	Telegram guruhlarida a'zolarning tug'ilgan kunlarini saqlash, eslatish va avtomatik tabriklash boti.	Backend • Server

SYSTEMS & AUTOMATION CATALOG

Production systems — catalog 2/3

Mavjud 25 ta buyurtma loyihasi: qisqa biznes qiymati va bajarilgan texnik rol.

PROJECT	SOLUTION / BUSINESS VALUE	OWNERSHIP
Barber Shop Bot BOOKING	Sartarosh jadvali va bo'sh vaqtlarini boshqarib, mijozlarni Telegram orqali navbatga yozuvchi tizim.	Backend • Server
Topshiriq AI Bot TASK AUTOMATION	Telegram guruhlarida vazifa berish, statuslarni yuritish va kundalik eslatmalar orqali nazorat qilish tizimi.	Backend • Server
Bozorlik WEB + MOBILE	Xarid ro'yxatini yaratish, tahrirlash, miqdor belgilash va ulashish imkonini beruvchi web va mobil ilova.	Full-stack • Mobile • Server
Sement Uz E-COMMERCE	Sement mahsulotlarini onlayn buyurtma qilish va yetkazib berish jarayonini raqamlashtiruvchi platforma.	Frontend • Backend • Server
Auction Bot TELEGRAM CAMPAIGN	Telegram kanallari uchun aksiyalarni boshqarish va obunachilar orasidan g'olibni aniqlash boti.	Backend • Server
Carwash Bot FEEDBACK	"6sekund" filiallari bo'yicha fikr, taklif va murojaatlarni qabul qilib, tegishli Telegram topiclariga yo'naltiruvchi bot.	Backend • Server
FM Experts Bot FEEDBACK	Kompaniya murojaatlarini filial yoki yo'nalishlar bo'yicha tegishli Telegram topic guruhlariga taqsimlovchi bot.	Backend • Server
Tutor Hisobot REPORTING	Admin belgilagan punktlar asosida tutorlar hisobotini yig'ish, nazorat qilish va markazlashtirish tizimi.	Frontend • Backend • Server

SYSTEMS & AUTOMATION CATALOG

Production systems — catalog 3/3

Mavjud 25 ta buyurtma loyihasi: qisqa biznes qiymati va bajarilgan texnik rol.

PROJECT	SOLUTION / BUSINESS VALUE	OWNERSHIP
Camera ANPR / MONITORING	Kirish-chiqishdagi avtomobil raqamlarini aniqlab, ro'yxat statusi va vaqtini Telegram guruhiga yuboruvchi monitoring tizimi.	Backend • Server • Camera integration
Task and KPI System OPERATIONS	Tashkilot ierarxiyasi bo'yicha vazifalar, mas'ullar, statuslar va oylik KPI natijalarini boshqaruvchi tizim.	Frontend • Backend • Server
Psychology Test System ASSESSMENT	Psixologik testlarni rollar bo'yicha tarqatish, javoblarni yig'ish va mutaxassis uchun natijalarni tahlil qilish tizimi.	Frontend • Backend • Server
Qabul System ADMISSIONS / PAYMENTS	Abituriyent ro'yxati, fakultet va imtihon tanlovi, QR token hamda Payme/Click to'lovlarini birlashtiruvchi qabul tizimi.	Backend • Payments • Server
IQ Test Bot ASSESSMENT BOT	IQ va psixologik testlarni Telegram orqali o'tkazib, natijalarni avtomatik hisoblash va admin guruhiga yuborish tizimi.	Backend • Server
Intellect Nomination APPLICATION SYSTEM	Tanlovning birinchi bosqichi uchun ma'lumot va video arizalarni qabul qilish hamda admin orqali ko'rib chiqish platformasi.	Frontend • Backend • Server
Projects System COLLABORATION	Project managerlar, investorlar va mutaxassislarni loyiha bosqichlari, arizalar va hamkorlik imkoniyatlari atrofida birlashtiruvchi platforma.	Frontend • Backend • Server
Transcribe AI AI INTERFACE	Video fayldagi nutqni tanlangan til bo'yicha matnga aylantirish uchun AI transkripsiya interfeysi.	Frontend

COMMERCIAL WEB DELIVERY

22 premium landing pages — design to production

Tijoriy brendlar uchun frontend implementatsiyadan server va domain/DNSgacha boʻlgan toʻliq production delivery.

Ushbu loyihalarda asosiy masʼuliyat faqat sahifani “chizish” bilan cheklanmagan. Har bir landing page responsive va production-ready holatga keltirilgan, serverga deploy qilingan, domain/DNS sozlangan va real foydalanishga topshirilgan.

22 BRANDS DELIVERED	100% FRONTEND OWNERSHIP	100% SERVER / DEPLOY	DNS DOMAIN SETUP
-------------------------------	-----------------------------------	--------------------------------	----------------------------

WHAT WAS DELIVERED

Premium Frontend Brandga mos visual hierarchy, responsive layout va zamonaviy web experience.	Production Quality Real device adaptivligi, assetlar, performance va browser-ready implementation.	Server Setup Production serverga joylashtirish, runtime va web server konfiguratsiyasi.
Domain & DNS Domain ulash, DNS yozuvlari va production trafikni toʻgʻri yoʻnaltirish.	Launch Ownership Developmentdan public launchgacha boʻlgan jarayonni yakunigacha olib borish.	Client Delivery Buyurtmachiga ishlaydigan, boshqariladigan va deploy qilingan tayyor mahsulot topshirish.

COMMERCIAL LANDING PAGES

Brand portfolio — 1/2

Frontend • Server • Deploy • Domain/DNS — barcha bosqichlar end-to-end bajarilgan.

01 Cafe1991 Frontend • Production deploy • Server • Domain/DNS	02 Khanate Restaurant Frontend • Production deploy • Server • Domain/DNS
03 CEM Tashkent Instruments Frontend • Production deploy • Server • Domain/DNS	04 Leyla Lux Frontend • Production deploy • Server • Domain/DNS
05 Emperia Gym Frontend • Production deploy • Server • Domain/DNS	06 ASL Gym Frontend • Production deploy • Server • Domain/DNS
07 Attar Gallery — Landing Page Frontend • Production deploy • Server • Domain/DNS	08 Nexel.uz Frontend • Production deploy • Server • Domain/DNS
09 Arch Maket Frontend • Production deploy • Server • Domain/DNS	10 Prado Center Frontend • Production deploy • Server • Domain/DNS
11 AkalarPC Frontend • Production deploy • Server • Domain/DNS	12 Munis Un Frontend • Production deploy • Server • Domain/DNS

Attar Gallery ushbu bo’limda public-facing landing page sifatida ko’rsatilgan; uning ichki ERP tizimi esa alohida flagship system sifatida portfolio boshida berilgan.

COMMERCIAL LANDING PAGES

Brand portfolio — 2/2

TECHNICAL DEPTH

Engineering stack & delivery capabilities

Turli turdagi loyihalarni bitta texnologiyaga bog'lanib qolmasdan, vazifaga mos arxitektura bilan yechish.

FRONTEND	React, Vite, TypeScript/JavaScript, Tailwind CSS, responsive UI, component architecture
BACKEND	REST APIs, authentication/authorization, business logic, file workflows, integrations
DATA	PostgreSQL / MySQL / SQLite, data modelling, transactional business flows
MOBILE & DESKTOP	Driver mobile workflows, Android/mobile components, PC EXE / kiosk applications
REALTIME & BOTS	Telegram bots, notifications, WebSocket/realtime patterns, workflow automation
INFRASTRUCTURE	Linux server, Nginx, deployment, systemd/runtime services, domain/DNS, SSL
PAYMENTS & HARDWARE	Payme, Click, IDPay, printer, camera/ANPR, WiFi and kiosk integrations
QUALITY	Production-focused testing, responsive QA, performance tuning and deployment verification

ENGINEERING PRINCIPLES

- Business requirementni texnik taskga aylantirish va arxitektura chegaralarini boshidan to'g'ri belgilash.
- Frontend, backend va infrastructure o'rtasidagi integratsiyani alohida qismlar emas, bitta product sifatida ko'rish.
- Production deployni developmentning yakuniy bosqichi emas, yechimning ajralmas qismi sifatida rejalashtirish.
- Real foydalanuvchi, real qurilma va real server sharoitida ishlaydigan, support qilish mumkin bo'lgan yechim topshirish.

PORTFOLIO SUMMARY

From idea to production. One owner.

Tizim arxitekturası, kod, integratsiya va production infrastructure bir-biridan uzilmagan holda boshqariladi.

Portfolio 49 ta project deliveryni qamrab oladi: 25 ta avvalgi tizim va avtomatlashtirish loyihasi, 22 ta tijoriy landing page, Attar Gallery ERP va Oqtosh Minerale CRM. Loyihalar web, mobile, bot, kiosk, payment, WiFi, camera va server infratuzilmasi kabi turli qatlamlarni birlashtiradi.

END-TO-END ENGINEERING OWNERSHIP

Frontend → Backend → Mobile / Desktop → Database → Integrations → Server → DNS → Production

Maqsad: "ishlaydigan kod" emas, real biznesda ishlaydigan tayyor product delivery.
